A FEVERISH FLUCTUATION

The Stock Closed at a Net Decline o Loss than a Point After Very Heavy Dealings-Market's Close

Stagnant.

(By Associated Press.)

NEW YORK. Oct. 23.—Amalgamated Copper absorbed an overwhelm mg proportion of to-day's business in the kock market. For a good deal of the time the dealings in this stock were lar er than in all others commined and it comprised about one-third of the agregate a cons derable shrinkage from the recent average and none but a negative sanite and considerable shrinkage from the recent average and none but a negative sanite and the contract of the day's day's total showed a cons derable shrinkage from the recent average and none but a negative sanite and the sanite of the day's day's market for simultaneous sales, which were market must be said to have ofter day good resistance to the day's disturbing factor as has been the case daring the whole of the week. From the point of yole of the professional traders it ere was an inclination to draw the inference that the backset feceived by the Amagamated Copper Company would ind on the part of the Standaud Oil party. There was a vey excited market for Amal a mated Copper at it.st. At the online of the part of the Standaud Oil party. There was a vey would make the content of the first few minutes of the trading from the stock then became effective, and it ralled it a point. Its flictuations were constant and feve in during the whole of the day, carrying it back to the op. Ling low point, then compitely recovering and closing at a net decline of 7-8. The accision to shut down the company's works in Montana pending the decision on appeal of the itigation presents a situation whose seriousness to the corporation can hardly be gainsaid. The pincipal to the contest exchanged litter recements and the impression gined force and the supply of the selling showed. Some falling off in consequence.

London's renewed unea ineas over the fare Eastern situation and some depression of bonds at rising prices. New York Centernal contents to the stock was of a substantial character, and the supply of the selling showed some falling of the content in a stouch of the sell

Furnaces and Mills Close.

(By Associated Press.)

NEW YORK, October 22.—R. G. Dun and Company's weekly review of trade to-morrow will say: n...

Numerous labor controversies have appeared, and more furnaces and mills have closed; the tendency being to operate only the plants provided with the most modern equipment. Despite the curvaliment of activity in many manufacturing lines, a heavy volume of business is being transacted.

A special feature of the doy will be a great missionary rally of all the children of the Episcopal churches in St. Paul's at 4 o'clock Sunday afternoon. Short, interesting addresses will be given by Dr. and Mrs. Pott.

The vielt of Dr. Pott is of unusual interest, and his addresses on China and conditions there will doubtless attract widespread attention. Dr. Pott's seventeen years of residence in Shanghal, combined with his occasional visits to other parts of the empire, and his constant intercourse with students who come from most of the eighteen provinces, have made him one of the leading authorities on all Chinese matters. He is an admirable speaker, and has

made a profound impression in some of the largest churches in New York and Philadelphila, where he has recently been speaking.

Dr. Pott was born in New York city about forty years ago. He was educated at Columbia University and the General Theological Seminary, During his seminary to the East Side of New York. Through his connection with the school he was led to make some study of Confuctanism. What he thus learned of the religious contains a summary service. He went out to Shanghai in 1883 and was for a time engaged in evangelistic work there and in some of the interior cities. Gradually, however, the great importance of educating College. St. John's is the only Episcopal Church college in Central China for a population of 100,009,000. Its students come from all parts of the empire; many of them are the sons of merchents, the most procressive class in China, and many others are the sons of sejolars and officials, the most conservative neople in China. At present the institution has 230 students, but the applicants for admission who cannot be accommodated number nearly 200. Dr. Pott is therefore asking the aid of Christian people in the United States in the raising of a fund for a new building. Of the \$25,000 needed, about one-half has aircady been siven, and of the sample of the sons of septiment of the court.
